

Date 1st June 2009	 SCAA <small>Seychelles Civil Aviation Authority</small> SEYCHELLES INTERNATIONAL AIRPORT AIRSIDE NOTICE	SIA AN 01 / 2009 Permanent / Informative
INTENDED RECIPIENTS:	All Airside Users	
SUBJECT:	Airside Notice	

As announced during the Ramp & Airside Operations Committee meeting of 26th September 2008, the SCAA is henceforth introducing the **Airside Notice** system.

The **SIA Airside Notice** will be the official means of communications of pertinent airside information and instructions from the SCAA to airport users. The notices will be released as and when is required by the office of the Airport Manager (Airside Operations).

These notices will be serialized and may be of permanent or temporary nature as will be indicated in the top right hand corner of the notice. The top right hand corner of the notice will also indicate if the notice is an instruction for compliance or for information.

Airside Notices will include any pertinent airside information or instruction which requires to be passed to airside operators and users. It is important that notices that are received by post, hand delivery and e-mails are acknowledged. The SCAA urges all airside operators to ensure that all notices reach its intended recipients, including all the relevant field workers in a timely manner. In addition all Airside Notices will be accessible on the SCAA website and the latest will be displayed for a least one month at prominent airside locations such as the Baggage Make-Up Area. Twice a year, SCAA will send a checklist of all Airside Notices that are current at the time.

For any queries or further information, please address Mr Colin Chang-Tave, Airport Manager (Airside Operations) at cchangtave@scaa.sc .

We thank you for your continued support.

Mr GILBERT FAURE
CHIEF EXECUTIVE OFFICER
SEYCHELLES CIVIL AVIATION AUTHORITY
